The OCC is requesting comment on the following revision to an approved information collection:

Title: Company-Run Annual Stress Test Reporting Template and Documentation for Covered Institutions with Total Consolidated Assets of \$250 Billion or More under the Dodd-Frank Wall Street Reform and Consumer Protection Act.

OMB Control No.: 1557-0319.

Description: Section 165(i)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act<sup>2</sup> (Dodd-Frank Act) requires certain financial companies, including national banks and federal savings associations, to conduct annual stress tests<sup>3</sup> and requires the primary financial regulatory agency<sup>4</sup> of those financial companies to issue regulations implementing the stress test requirements.<sup>5</sup> Under section 165(i)(2), a covered institution is required to submit to the Board of Governors of the Federal Reserve System (Board) and to its primary financial regulatory agency a report at such time, in

such form, and containing such information as the primary financial regulatory agency may require.<sup>6</sup>

On October 9, 2012, the OCC published in the *Federal Register* a final rule implementing the section 165(i)(2) annual stress test requirement.<sup>7</sup> This rule describes the reports and information collections required to meet the reporting requirements under section 165(i)(2). These information collections will be given confidential treatment (5 U.S.C. 552(b)(4)) to the extent permitted by law.

In 2012, the OCC first implemented the reporting templates referenced in the final rule.<sup>8</sup> The OCC published proposed revisions to these templates on October 10, 2019.<sup>9</sup> The OCC is now finalizing these proposed revisions as described below.

The OCC intends to use the data collected to assess the reasonableness of the stress test results of covered institutions and to provide forward-looking information to the OCC regarding a covered institution's capital adequacy. The OCC also may use the results of the stress tests to determine whether additional analytical techniques and exercises could be appropriate to identify, measure, and monitor risks at the covered institution. The stress test results are expected to support ongoing improvement in a covered institution's stress testing practices with respect to its internal assessments of capital adequacy and overall capital planning.

The OCC recognizes that many covered institutions with total consolidated assets of \$250 billion or more are required to submit reports using Comprehensive Capital

Analysis and Review (CCAR) reporting form FR Y-14A.<sup>10</sup> The OCC also recognizes the Board has modified the FR Y-14A and, to the extent practical, the OCC has kept its reporting requirements consistent with the Board's FR Y-14A in order to minimize burden on covered institutions.<sup>11</sup> Therefore, the OCC is revising its reporting requirements to mirror the Board's FR Y-14A for covered institutions with total consolidated assets of \$250 billion or more. The changes include updates to various schedules to reflect the current expected credit loss (CECL) accounting methodology. These changes accommodate covered institutions that have adopted CECL by the reporting date and those that have not yet adopted CECL by the reporting date. The changes also include a collection of supplemental CECL information. The changes also include items not related to CECL adoption. The purpose of these changes is to keep the reporting forms in line with changes in the Consolidated Reports of Condition and Income (Call Report) as well as to provide further clarity or alignment of the instructions with the XML reporting files. There are also changes that require information to be reported at a different level of granularity.

Type of Review: Revision.
